Description					
Eligibility for grant funding under a maintenance program that applies to private sewage systems					

Assumptions Used in Arriving at Fiscal Estimate

2009 AB 950 indicates deadlines by which counties must institute a maintenance program for private onsite wastewater treatment systems (POWTS) in their jurisdictions, and also by which an initial inventory of POWTS in their jurisdictions must be completed.

2005 WI Act 347 required that counties institute a maintenance program for POWTS located in their jurisdictions. In order to administer a maintenance program, a county must have an inventory of POWTS located in its jurisdiction. The Department recently updated Comm 83.255 to indicate deadlines by which a county must have implemented a POWTS maintenance program (October 1, 2013) and conducted an initial inventory of POWTS (October 1, 2011). 2009 AB 950 extends each of these deadlines by two years.

2009 AB 950 would result in a difference between the statutory deadlines and the deadlines indicated by Comm 83, necessitating an update to Comm 83. The Department estimates that the one-time workload of updating Comm 83 can be absorbed within current resources.

Counties, which do not anticipate having a maintenance program or an inventory in place by the current deadlines indicated in Comm 83, may be financially impacted by the legislation because the costs associated with these activities may be delayed. A Department survey of counties indicates that six counties anticipate they will not meet the current Comm 83 deadlines. The implementation status for three counties is unknown.

Long-Range Fiscal Implications
